- What do we need to feel secure on a personal, national & global level?
- What are some paths to sustainable peace and security?

\_\_\_\_\_ and Grassroots International would like to offer you an opportunity to participate in an engaging, interactive workshop in which to share your concerns, hopes, and ideas of how to best create a secure and just world. **Extending Rights, Building Security** offers participants an opportunity to consider a comprehensive definition of security, discuss what types of actions and policies expand or erode our security, and identify the steps we can take to weave a stronger security net.
